ProDVX Android Applications

ProDVX offers a wide variety of Android applications for DS series tablets and ABPC series boxes.

The following applications are available:

1. **Videolooper**
2. **Video and Pix**
3. **Kiosk Webbrowser**
4. **Lite Signage player**

 1. Videolooper

The videolooper for Android plays full screen video and stills

With this application you can turn your Android device into a professional Video player.

Features:

- The application starts automatically at power on
- The content will be played in full screen mode (no Android taskbar)
- Content can be update by USB stick (copy from USB to SD Card)
- Plays looping videos and stills continuously

This application comes free with our DS series Android Tablets and the ABPC Series Android Boxes.

 2. Video and Pix

Video and Pix for Android is an easy to use tool to create your own interactive kiosk for video on demand.

Place 2, 4 or 6 thumbnails on a screen (page) with an unlimited number of pages. Touching one of the thumbs will start a video.

Features:

- The application starts automatically at power on
- The content will be played in full screen mode (no Android taskbar)
- Content can be update by USB stick
- 2, 4 or 6 thumbnails per page
- Unlimited number of pages
- Different backgrounds possible
- Interactivity by touchscreen but also by use of our barcode scanner module for DS Series

This application comes free with our DS series Android Tablets and the ABPC Series Android Boxes.

 3. Kiosk webbrowser

The Kiosk Webbrowser is a full screen browser for our DS Series Android Tablets.

Features:

- Full screen browsing
- The application starts automatically at power on
- Set your default URL
- Default URL address will open after startup
- Auto refresh

This application comes free with our DS series Android Tablets and the ABPC Series Android Boxes.

 4. **Lite Signage Player**

The Lite Signage player is an economical tool for Digital Signage.

Features:

- Plays full screen looping video and stills
- The application starts automatically at power on
- Remote update content through Dropbox or FTP
- Includes frameless browser
- Includes screensaver/attract mode that can link to a website.
- Web based player monitoring tool
- No monthly fees, one off license purchase
- Will work on any Android device (some features need root access)
