

Vendôme 8

Vendôme takes the best of what the professional audio and high fidelity sectors have to offer.

Thanks to its sleek design, Vendôme will blend seamlessly into any premium or high-end store, restaurant, lounge bar, music bar and hotel. Vendôme will also thrill music lovers with its acoustic qualities, including speed, transparency and natural reproduction.

The loudspeakers in the Vendôme range deliver the same reliability as pro audio products and are capable of operating at high output levels without any deterioration in quality.

Furthermore, they can be installed in any venue with their stylish and customisable design, whether blending into the scenery or specifically used as a decorative feature. Ultimately with the Vendôme range, loudspeakers no longer need to be hidden away out of sight.

It is not enough to just be reliable, loud or beautiful.

The Vendôme Eight was thus born: a loudspeaker combining the qualities of a professional loudspeaker containing an 8" woofer with a design that customers will want to keep in full view.

Vendôme Eight is unique with its curves, materials and finishes.

Vendôme Eight's sound signature is the ideal match for venues requiring relatively high sound levels with a flawless finish.

Features

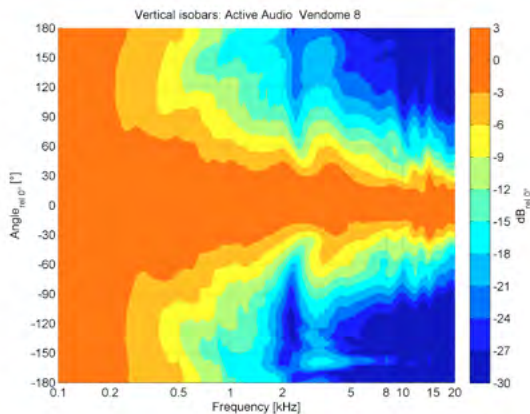

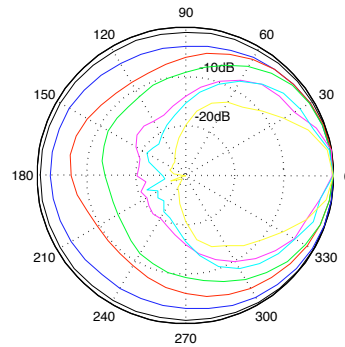

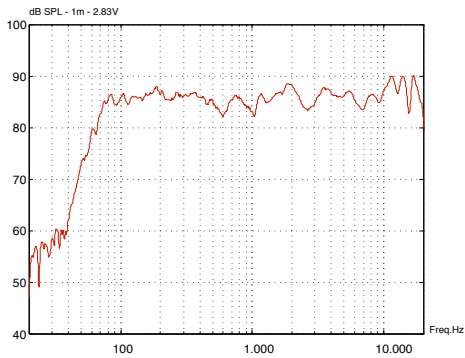

- Deep bass, sharp and dynamic sound
- Excellent visual integration
- Horizontal and vertical installation
- Processing with NUT processor
- 5-year warranty

Main technical data

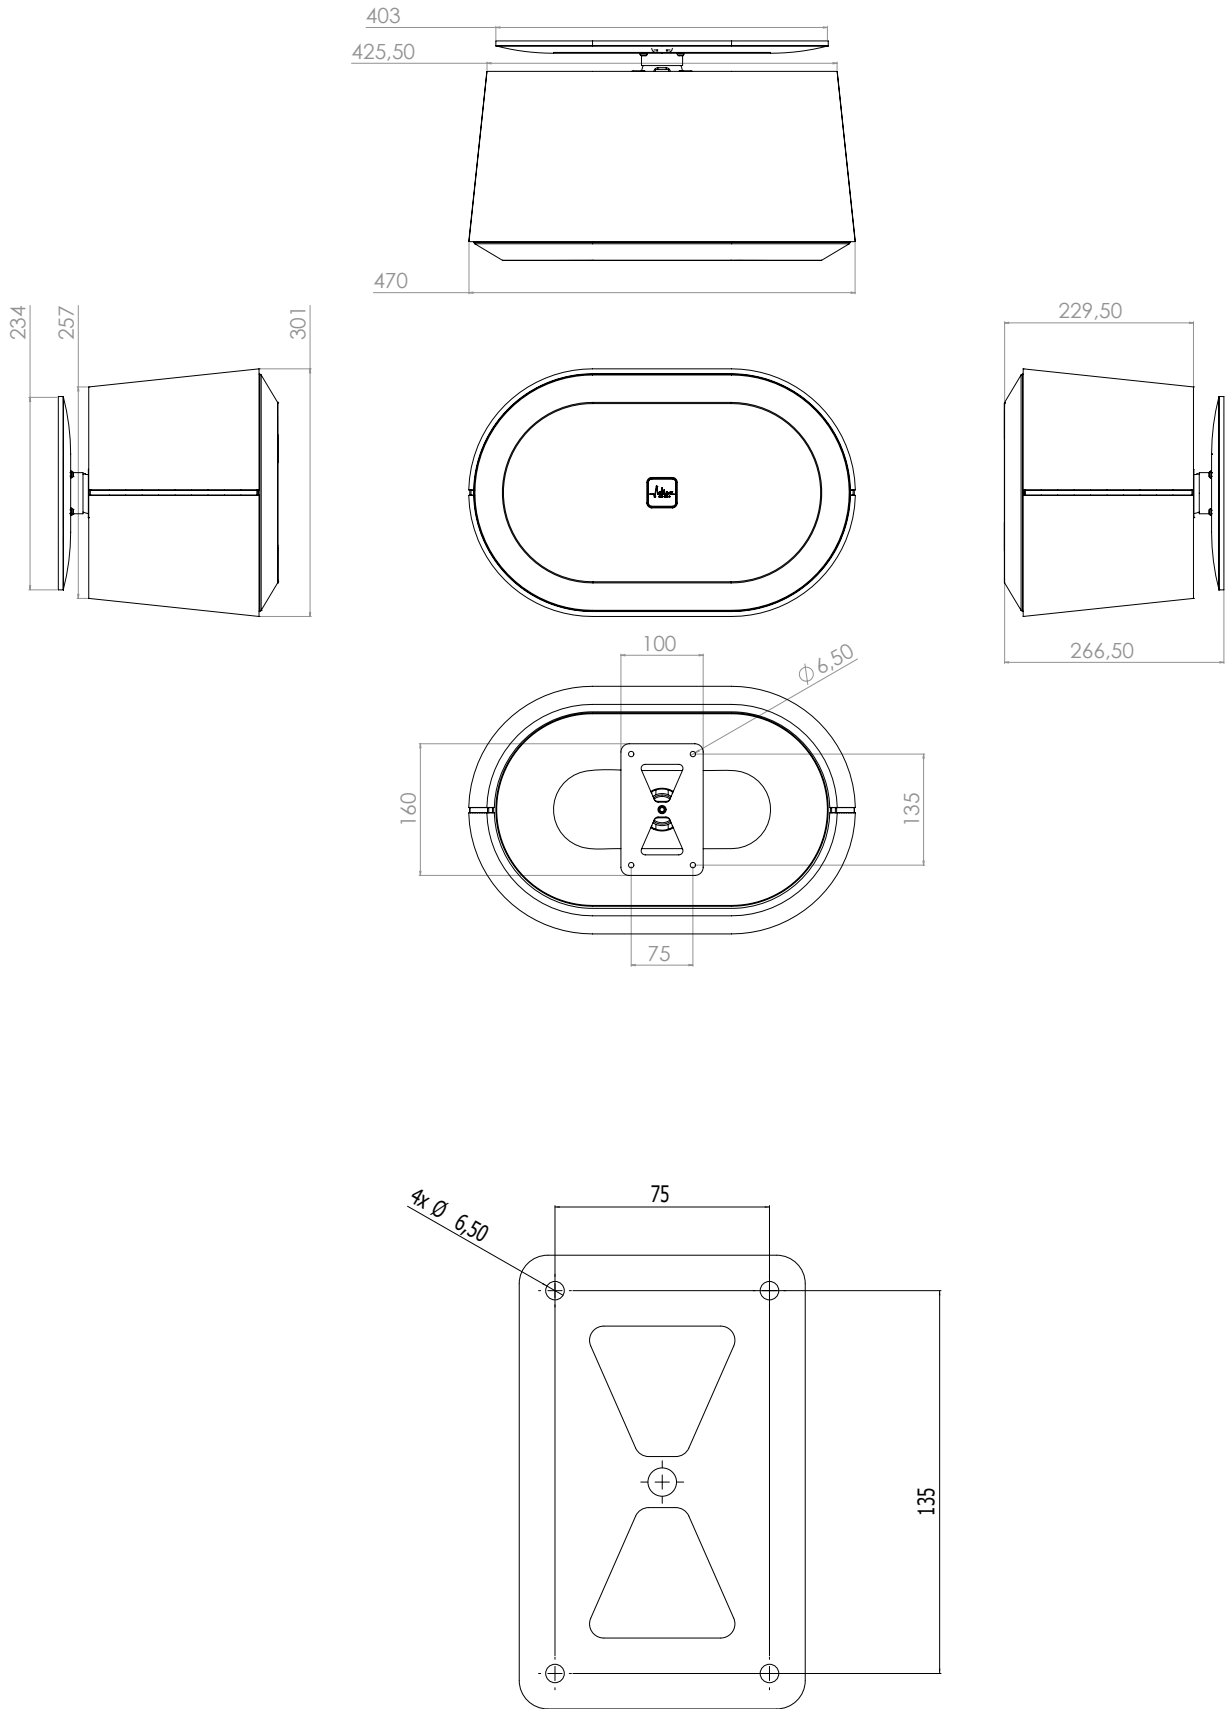

- Max SPL at 1m: 113dB
- Bandwidth: 47Hz - 20kHz
- Max power: 250W
- Nominal impedance: 8Ω

Technical specifications

Mechanical	
Dimensions	47cm x 30cm x 23cm
Weight	8.0kg
Loudspeaker materials	Multiply wood
Standard finishes	Deep Black, Pure White and Natural
Acoustical	
Sensitivity	91.5dB / 1W / 1m
Max SPL at 1m	113dB
Frequency response at -10dB	47Hz - 20kHz
Directivity	1kHz: 130° / 120° 4kHz: 80° / 80°
Drivers	8" woofer + 1" compression
Electrical	
Nominal impedance	8Ω
Max long-term power handling	250W
Input connector	Euroblock chainable
100V option	
Transformer type	Toroidal
Single tap	100W
Max SPL at 1m	109dB
Frequency response	47Hz - 20kHz
Weight including 100V option	9.4kg
